Brandon Lozano

Front End Web Developer

I'm Self-Driven, with 2 years of experience gaining and retaining clients with custom websites, logo design, and photography. I'm skilled in developing responsive, modern, and functioning websites - deploying them on my self-managed server using Git. I'm striving to grow in front-end design and create more complex web applications.

WORK EXPERIENCE

Front End Developer 04/2020 - Current
Freelance San Antonio, TX

- I Developed a handful of responsive websites for clients across industries using HTML, SASS, Javascript, Git, Ubuntu Server, and Apache Web Server.
- Worked on all project aspects - written content, website design, development, and deployment in collaboration with clients.
- I Maintain websites with change requests, server management, and ongoing website optimization to decrease load times and better SEO rankings.

Graphic Designer 04/2020 - Current
Freelance San Antonio, TX

- I've created logos and product labels for self-sourced clients, involving client collaboration - achieving looks that best suit each company's target audience.
- Revised projects based on client's needs and medium (web, social, and print).

Project Manager 07/2017 - Current
Host It Solutions San Antonio, TX

- Manage client meetings to determine the scope of work, timelines, 3rd party integration needs, and go-live dates.
- Worked with in-house engineers to assign IP ranges for client projects, firewall allowances, and interface with additional resources needed such as database and email servers. Scripted tools to deploy user credentials via SMS.
- Worked with clients to streamline their current workflow processes. Introduced programming features to automate manual procedures reducing manpower and developing remote access tools to push data back to the home office.

EDUCATION

High School Diploma 2013-2017
Smithson Valley High School Spring Branch, TX
